

BOSE® V CLASS SYSTEMS

INTRODUCING A REVOLUTIONARY APPROACH TO HIGH-DEFINITION HOME THEATRE.

PERFORMANCE : PREMIUM ACOUSTICS + HD VIDEO

Go beyond ordinary home theatre. The Lifestyle® V30 system is uniquely designed for performance, elegance and flexibility. It comes with award-winning Jewel Cube® Speakers and a hideaway Acoustimass® Module, that delivers deep and emotional intensity, that you feel at the theatre. It produces rich, powerful lows like you experience at a concert hall. The system delivers picture as crisp as the sound. Thanks to automatic video upscaling, which ensures movies and sports are always in the highest resolution your TV can accept – up to 1080p over HDMI.

CONTROL – ONE BUTTON SIMPLICITY

Lifestyle® V Class Systems change the face of home theatre by eliminating the need for a large, complex receiver. Simply connect your high-definition components, gaming console and other A/V equipment to our well-labeled media console. Then hide it all away. A standalone display lets you receive and control system information. The Lifestyle® V30 system will automatically synchronize the audio and video at the press of a single button on the universal radio frequency remote.

CUSTOMIZE SOUND TO YOUR ROOM

Your room is unique, with size, shape, textures and other elements affecting the sound you hear. The ADAPTiQ® system was developed to analyze

your room and then adjust the Lifestyle® system for a consistent, high quality performance each time you listen.

TAKE YOUR MUSIC WITH YOU

Benefits don't end in your main room. Built-in Bose® link technology can distribute the system's audio to other rooms. Add compatible Bose® products to enjoy music almost anywhere, even outdoors.
