

Alpha Achieves 100% Placements in 2007-08

Alpha Arts & Science College students have received more than one placement offers. The highest placement offer went to Ashlesh R for a placement as Junior Scientific Engineer at Google's European Headquarters, Dublin, Ireland, the package being US \$ 22,000 plus perks per year. The Alpha Group of Educational Institutions has scripted success stories for more than four decades - decades of trust, excellence and innovation. They have created new benchmarks in the field of education. Today, Alpha Arts and Science College is rated amongst the best institutions of its kind.

Alpha Arts and Science College (AASC)

(Approved by the Government of Tamil Nadu and affiliated to the University of Madras)

The Institution provides the right ambience for students, nurturing their innate talents. Alpha's focus has always been on developing the wholesome personality of the student. Interface with industry is part of the curriculum, which is constantly updated by Alpha faculty who follow innovative teaching methodologies. Well-known scientists and academicians back the faculty. Communication skills, group discussions, personal interviews, public speaking and training to face entrance examinations are part of the carefully structured personality development programme at Alpha. Students are encouraged to venture beyond the purview of the university syllabi and widen their intellectual horizon. Alpha Arts and Science College graduates are much sought after by reputed companies.

In-house Research Projects and regular international workshops are conducted on Bio-science, leading to International Certification. Students are also exposed to Real Time Research and encouraged to present their research works in seminars and conferences.

International University Tie-ups

Alpha Arts and Science College has signed MoUs with universities in USA, UK, France and Australia for Joint Certificate Programme. Unique Inter-Campus Students Exchange Programme from and to countries China, Oman, UAE, Sudan, and NRIs from USA, UK and Australia is also arranged every year.
