■ High Definition Silicone Cosmetic Restoration- Endolite India

The naturalism and life quality of external prosthesis is the most challenging yet controllable factor in a patient's happiness and ultimate acceptance of the prosthesis.

Endolite India Ltd., a Prosthetic & Orthotic services Company located at A-4, Naraina Industrial Area, Phase-I, New Delhi-110028 has brought in this Silicone based technology into the Country. Customized cosmetically restored fingers, toes, partial hands & feet, ears, noses, eyes & breasts are now being fabricated using high definition silicones. All these are fabricated from a plan duplicate of the patient's stump to achieve proper proportions. Each cosmoses is sculpted to meet individual requirements & has realistic appearance and feel. Special attention is given to hair implantation, freckles, veins and nail appearance and this makes the restoration close to natural. Thorough pre fitment planning, in terms of size, color and appearance is strictly followed to achieve desired results. The fabrication technique involves colouring the silicone material itself prior to sculpting as opposed to surface painting. This process allows the layering of different shades of silicone to provide translucent finish to the cosmoses, similar to real human tissue. At Endolite Cosmetic Restoration Lab and its branches in all major metros in India as well as in Dhaka, the mission is to provide life like restoration as far as possible.

OUR MOTTO 'THE PATIENT FIRST'.

If your mattress doesn't shape up like ours, ...

... it's likely the cause of your disturbed sleep.

In today's hectic lifestyle the 8 hours we spend on our mattress may well decide how tomorrow would be. Stiff?? Aching?? or refreshed & full of energy.

Vitabed introduces highly innovative & advanced Viscoelastic 'Memory Foam' mattresses & pillows that actually sense your body contours & adapt to your individual body shape. Memory Foams, developed by NASA, mould around the contours by sensing body heat & pressure, resulting in extreme pressure relaxation & advanced posture control. This helps reduce stiffness &

pains and results in reduced tossing & turning to greatly enhance deep sleep periods.

Made in Germany by Metzeler Schaum & using biological foams, we develop our products much beyond regular expectations. Backed by extensive warranties and affordable prices we are sure to shape up to your expectations.

Check out our Try at home offer (conditions apply), call 9810002078, 9810026688 or email to info@vitabed.com. Offer available only through dealers in Delhi & NCR.
