

■ Dr. Rajesh Garg

Dr. Rajesh Garg, Delhi based Orthopaedic Joint Replacement Surgeon (Max Hospital, Tirath Ram Shah Hospital and G. M. Modi Hospital) with international expertise from United Kingdom, Hong Kong and Japan states that: **Degenerative Arthritis/Osteoarthritis** of the knee joint also called wear and tear arthritis is characterized by progressive wearing away of the cartilage of the joint. **Effects of ageing** are visible on the skin, hair, sight etc and the knee joint is no exception. With age and supplementary diseases (Rheumatoid Arthritis, Fracture, etc) the congruous smooth cartilage of the knee joint erodes. The body reaction to this cartilage erosion results in excess bone (osteophytes) and synovial fluid (swollen joint) formation. This reaction leads to
