

vitabed

■ Vitabed brings to India

Vitabed brings to India, innovative German Sleep systems that are bringing a change in the way people sleep and relax the world over. Vitabed mattresses and neck pillows are made of Viscoelastic Memory Foam that was initially developed by NASA. These breathable and slow recovery foams sense body shape and heat to mould around body contours. By providing optimum support and extreme pressure reduction they help reduce neck & back stiffness and relieve pain to help you sleep comfortably. Pressure

reduction also greatly reduces the need to toss and turn and helps to increase the deep sleep periods. Perfect ergonomics and high level of comfort assure a great improvement in sleep. Memory foam products are the latest innovation in bedding. Millions, all over the world are discarding age old mattresses and changing to new generation foams. That's the reason why most coir & spring producers have a memory foam product in their highest category. Vitabed products are made by Metzeler Schaum, Germany and made of sunflower oil based biological foams that are washable. Being specially designed for Indian conditions & covered in luxurious Italian Knit fabric of cotton & advanced Tencel fiber, these high density mattresses are backed by extensive warranties & after sales. Available in all sizes and through the most reputed retailers, Vitabed is soon expanding nationwide. Also in the inventory are special hotel & hospital mattresses. So, if you live a hectic lifestyle, here is your best chance to rejuvenate for tomorrow, give Vitabed a try.

■ Kelvin Systems (P) Ltd.

"KELVIN SYSTEMS (P) LTD" IS a Company that has been in Comfort Cooling business since 1975. RAJNISH K SHARMA

this field. **Rajnish K Sharma, Vice Chairman of the company,** says that "to offer our customers latest airconditioning equipments we constantly upgrade the product line with new tie ups. Airconditioning is going thru revolutionary changes and many brands are introducing

State of the Art products. These are highly efficient, reliable and flexible to suit new trends and requirements of all users." 'Kelvin' team ensures total comfort & care for its customers. From celebrity homes to lounge bars, from designer show room to corporate office, from home theatre to indoor pools. 'Kelvin' provides the best comfort solutions. Kelvin is actively promoting Mitsubishi VRF systems. Mr. Sharma says "today people are willing to spend rather invest in comfort and airconditioning is the most vital component. There is good market for Premium brands and products." Some time ago people would spend more on the Kitchen of the house than on the airconditioning of the house. In the changing life style Airconditioning is getting priority and is planned along with the design and interiors. Mr. Sharma says "The key driver is design & selection of the right equipment and there after proper installation and prompt after sales service".
