

23 crore LIC policies in force... and counting.*

There is safety in numbers. In life insurance, this is absolutely true.

If LIC policyholders were to constitute a separate nation, they would be the fifth largest in the world. The larger the number, the safer your investment and more sure you can be of the future. As a LIC policyholder, you belong to one of the largest insurance communities in the world. And that is no small comfort.

When it comes to your next life insurance or pension plan, trust the one that has India in its name, and in its heart.

LIC... Why go anywhere else?
