A DECADE OF ACHIEVEMENT
2008

FROM IDEA TO ICON IN TEN YEARS

Vertu was born from an idea. To create the finest phones for the most discerning individuals. Phones that combine craftsmanship and technology in pioneering new ways. That blend sapphire crystal and space age ceramic with leather and gold. That are hand-built in England, one at a time. That redefine personal service by offering global concierge assistance at the touch of a button. Ten years since its foundation, Vertu is an icon, recognised as the pinnacle of mobile phone excellence worldwide.

This has been Vertu's decade of achievement. This is your phone.
