

Widex rules the Digital Hearing Aids segment in India

Widex, the World's No.1 Digital Hearing aid manufacturer has been at the forefront of serving the hearing impaired across the globe. With many firsts - the first to provide the digital hearing aid, the first to produce the smallest digital hearing aid in the world, the first to innovate integrated signal processing technology in hearing aids, Widex has always put an impetus on technology and understanding the needs of the hearing impaired, enabling them to hear a world of sounds.

"Now the hearing impaired can enjoy life to the fullest, by obtaining sound quality, closest to normal hearing than ever and also enjoy music, conversations on the phone and lead an active lifestyle, just like normal people," said Mr. T S Anand, Managing Director, Widex India Private Limited.

Widex India forayed into the hearing aid segment in the year 2000 with Senso+, the first revolutionary digital hearing aid. Widex is also credited with the launch of nation's first low priced digital hearing aid "Bravo" followed by the launch of "Senso Vita" and the very popular "Diva" range. "Inteo", "Aikia" and "Flash" - all three ISP (Integrated Signal Processing) hearing aids are the latest innovations that have caught the imagination of the entire nation. This range is today the premier digital hearing aid range, within just a year of its launch. The brand is constantly expanding with newer product variants - Micro - mini BTE (one of the world's smallest behind the ear digital hearing aid) and Passion - RIC (Receiver in the canal).

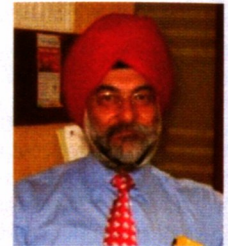

Headquartered in Chandigarh, the Company has established its presence across the country through an extensive network of sales offices in Bangalore, Chandigarh, Chennai, Delhi, Hyderabad, Kolkata, Mumbai, Pune. Service Centres are located at Bangalore, Chandigarh, Chennai, Delhi, Kolkata, and Mumbai. Widex India also has a strong distribution network of dealers in all major cities of the country, as well as, its own diagnostic and dispensing centres - Senso Hearing Centres. These centres are located in Ahmedabad, Amritsar, Bangalore, Bathinda,

Our constant endeavor is to help those with a hearing impairment to live a normal and happy life again. We offer customized solutions to meet individual hearing problems. Right from diagnosis, to conducting hearing tests and providing hearing aids best suited to individual needs and requirements.

Managing Director, Widex India

Chandigarh, Chennai, Dehradun, Hyderabad, Jalandhar, Kochi, Kolkata, Ludhiana, Mumbai, Mohali, Pune, Thane and Dhaka (Bangladesh), making Senso Hearing Centres, Asia's largest chain of hearing care clinics, numbering 26. There are plans on the anvil of launching 100 franchise dispensing centres across the country, in the coming years.

Dispensing is another area of expansion for Widex. Senso Hearing Centres, are a chain of dispensing centres in India, which are wholly owned and run by Widex. Senso Hearing Centres, are dedicated Hearing

Care Clinics which provide customized and personalized services to people with hearing impairment. Senso Hearing Centres offer a whole range of services, making them a one-stop clinic for hearing assistance. These centres provide the hearing impaired a world of clinical solutions namely, Hearing Check-up (PTA - Pure Tone Audiometry), Impedance Audiometry, Paediatric Assessment, BERA, OAE, Counseling, Hearing Aid Fitting, Earmoulds, Hearing aid servicing and repair.

Senso Hearing Centres also offer communication need assessments, assistive listening device evaluation and dispensing, and a wide range of procedure and services. The upgraded modern and deeply profound system promises to bring smiles to every person deprived of the sweetness of sound.

In order to keep the audiologists and dispensers abreast with the latest technology, Widex organizes
