Marketing Communications,
Widex India.

training programmes and open houses all over the country. These programmes are focused on Widex technology, hearing aid selection and fitting for paediatric and adults. The participants are guided through both technical as well practical aspects.

These training programmes ensure that audiologists are kept abreast with new developing technologies and fitting procedures. Widex also runs a scholarship programme for M.Sc. students who are keen to take up a career as audiologists.

Widex has also ventured into audiological equipment and have launched revolutionary products, including, Vivosonic Integrity, wireless system for auditory electro physiological assessment and hearing screening and portable audiometer 'OtoPod'.

IK Gujral, Former prime minister
honouring Fahimuddin,
the inspiration for the movie Iqbal.

Widex is a socially responsible organization, aware of it's responsibility towards the society and tries to help the needy hearing impaired people, as part of its philanthropic measures. In the past, Widex has adopted 20 hearing impaired children of Lady Noyce Secondary School for the Deaf, New Delhi, distributed free hearing aids to children throughout India and contributed to the welfare of the Tsunami victims and felicitated real life heroes at a function held at Maulana Medical College, New Delhi. Mr. I.K. Gujral, former Indian Prime Minister, was the chief guest and presented Widex Digital Hearing Aids to Fahimuddin, a class 10th student who is deaf and dumb but has been supreme in his struggle to emerge as a budding cricketer. He was part of the winning cricket team at the 'WORLD CUP FOR THE DEAF' organized at Lucknow. He is also the inspiration behind the popular movie 'IQBAL'. Two more real life 'Iqbal's', Rohit Saini and Hemant Kumar, were also presented with a set of high power digital hearing aids.

"Fahimuddin, the inspiration for the movie Iqbal has been adopted by Widex India and shown considerable improvement since the time he started using Widex Digital Hearing Aids," says Mr Shakeel H Rizvi, General Manager, Marketing Communications, Widex India.

Widex India has chosen to mesh it's social commitment into business vision. From time to time, company organizes Free Hearing Check-up Camps and Hearing Awareness programmes throughout the length and breadth of the country. Thousands of hearing impaired patients are examined at these camps by professionally trained audiologists. These initiatives are part of Widex India's nationwide effort to reach out to the hearing impaired people and educate them about how they can lead a happy and normal life with an hearing impairment.

Widex was first in the Indian market with CAMISHA, a sophisticated and revolutionary computerised method of manufacturing individual hearing aid shells, earmoulds and ear-pieces. Widex has exclusive rights of CAMISHA in India. This technology is used to manufacture CIC and ITE hearing aid shells and the company is moving towards full-scale production of CIC and ITC shells with fully integrated faceplates, as well as BTE ear-moulds and elan ear-pieces. With the help of the Widex CAMISHA technology the smallest possible hearing aid with maximum comfort can be produced. CAMISHA guarantees an individualised solution where the hearing aid shell, earmould or ear-piece is made to fit your ear precisely.

Widex believes that hearing impairment is no longer a handicap and the sooner one acknowledges it, the sooner one can solve his hearing problem. The highly advanced Widex digital hearing aids have spread smiles to millions of patients across the globe and endeavors to bring to the society more and more advanced products and help the hearing impaired lead a normal and rewarding life. For more information visit at www.widexindia.com or www.sensohearingcentre.com

Widex hearing aids are undoubtedly the most sophisticated digital hearing aids in the world. Now I don't have to look for the voice, the voice comes to me, automatically. I can hear my family and friends better and this improves the quality of my life. And everyone around me appreciates it. I strongly recommend them to each individual who wishes to revive his hearing.
