

Electricity:

Four and half years ago, the new state government faced a formidable challenge: How to ensure adequate electricity supply to the farmers, industry and common people? Well, after putting this sector on the priority list, the situation has improved tremendously. The power generation capacity has been raised from 3890 MW to 6684 MW in the last years. This was a record. Although a lot remains to be done, the state is expected to be self-reliant in power sector too.

- Power generation capacity increased from 3890 MW to 6684 MW.
- Transmission losses come down from 7.93 to 5 percent.
- 4618 km lines of 11 kv and 2701 km lines of 33/11 kv laid.
- Rs. 2900 crore Action Plan implemented to take power to wells of farmers.
- Under voltage improvement programme 6570 km power lines and 260 new poer sub station set up.
- One thousand MW power obtained by completing Indira Sagar Hydel Power Project one year ahead of schedule.
- 520 Hydel power generation capacity created by completing Omkareshwar Hydel Power project. Ten MW capacity created by constructing Rani Avanti Sagar canal power house.

Round-the-clock power supply is being made to the industries for last three years. The 1000 MW capacity Indira Sagar hydel power project has started generation. MP has started receiving 826.5 MW as its share from Sardar Sarovar hydel power project. Besides, 20 MW has been received from Bansagar, 40 MW from Madilekha and 10 MW from left bank canal of Bargi. The new 500 MW unit of Birisinghpur has been commissioned. On completion, this Rs 2300 crore project would generate 3723 million unit power annually.

Efforts are also on to increase generation capacity to 8170 MW by 2009. The generation transmission losses have also come down from 7.93 percent four years ago to 5 percent now. Besides, 4618 km lines of 11 KV and 2701 km lines of 33/11 KV have been laid down. A Rs 2900 crore

action plan has been implemented to take power to the wells of farmers. Under voltage improvement programme, 6570 km power lines and 260 new power sub stations have been set up. In order to encourage green power, a minor hydel power policy has been introduced. In order to solve the problems of consumers a Lokpal has been appointed under Madhya Pradesh Electricity Regulatory Commission. Computerized call centers have been set up in major cities for registration of consumer complaints. Maintenance of transformers has been improved due to which the rate of defunct transformers has decreased by seven percent.

Social Sector:

The state government has paid equal attention to the social sector with special emphasis on weaker sections of society. In order to protect the poor families from the unprecedented price hike, Chief Minister Shri Shivraj Singh Chouhan has launched an ambitious Mukhya Mantri Annapurna Yojana to provide wheat at Rs 3 per kg and rice at Rs 4.50 per kg to the BPL families. A provision of Rs 160 crore has been made in the budget for this scheme. Under this, each BPL family is being provided 20 kg food grains per month. The scheme has proved to be a huge success. The District Collectors have been instructed to ensure that food grains distribution is made under the supervision of Monitoring Committees set up for each fair price shop and that there is no black marketing and other irregularities. He has warned that strict action would be taken in case of any negligence in implementation of the scheme.

62 MOUs WORTH RS 88,000 CRORE SIGNED AT GWALIOR INVESTORS MEET

The darkness of industrial backwardness has started dispelling in Madhya Pradesh. In last nine months since the Global Investors' Meet at Indore Memoranda of Understanding (MoU) for investment of about Rs.2.75 lakh crore have been inked. This creditable achievement shows that Madhya Pradesh is no longer a backward state.

On the second day of the two day Gwalior Investors Meet a total of 49 MoUs were signed for investment of Rs. 55,877 crore. On the first day, 13 MoUs worth Rs 32,114 crore were signed. Thus, a total of 62 MoUs were signed for investment of Rs. 88,018 crore during the two-day meet.

Of these, 29 were signed for industrial sector for investment of RS. 42,465 crore, one for SADA for investment of Rs. 2,000 crore, 6 in energy sector for investment of Rs. 40,340 crore, 19 for food processing for investment of 1403 crore, 2 for Information Technology for investment of Rs. 610 crore and 5 MoUs were signed for higher education sector for investment of Rs. 1200 crore.

Of the total MoUs worth Rs. 11,448 crore were inked for Gwalior region of which MoUs worth Rs. 10,476 were for Gwalior division and Rs. 972 crore for Chambal division. A total investment of Rs. 2862 crore is proposed in Gwalior district.

Madhya Pradesh is the ideal destination for investment as there is no any discrimination based on language, caste or region here. Gwalior region is now poised for a giant leap. While encouraging the investors and industrialists from outside the government would take steps to ensured that local ones get all necessary facilities and concessions to thrive.
