Purie with Khan

## STAR DATES

For her very first date, **Koël Purie** went to watch *Maine Pyar Kiya* and fell madly in love. But not with the boy sitting next to her. The young **Salman Khan** had easily worked his boyish charm on her. So the first guest for her chat show *On the Couch with Koël*, launching on August 16 on Headlines Today, just had to be Salman, the man who she believes has a heart of gold but is grossly misunderstood. When Koël asked, "Which living person do you most dislike?" The ultimate bad boy answered with a candid smile, "If I dislike someone, they won't be alive." In that case, some people better watch out.

## Role Call

Classical music aficionados don't need an introduction to Pandit Jasraj. But the good news is that the maestro is set to make his first appearance in Vikram Bhatt's spooky tale *1920*. The singer has given his voice to an Adnan Sami composition, *Wada*, and recently shot its promotion video. This romantic number also features the lead pair, Rajneesh Duggal and Adah Sharma. Tune in.

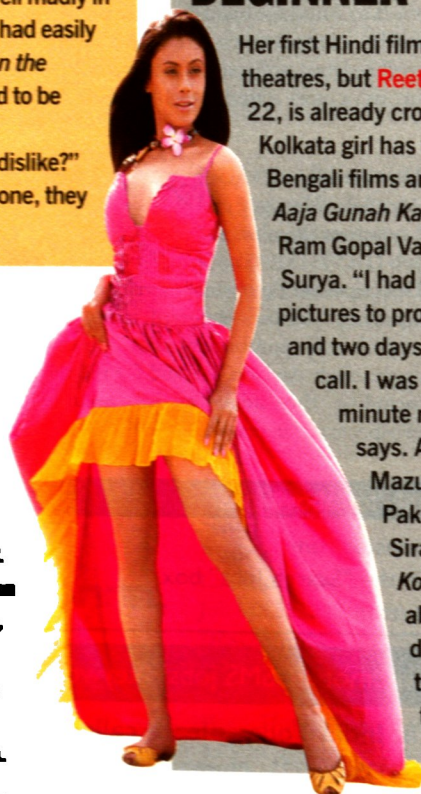

## Yet Another Spin

Hollywood has been abuzz with the news of wild child actor-singer Lindsay Lohan's (right) liaison with DJ Samantha Ronson. Rumour has it, they plan to get married. Lucky for us, Ronson is due in Mumbai on August 18 to turn the tables at club Blue Frog. Since Lohan has been accompanying Ronson at all her gigs, the question is, will she land in Mumbai too?

## BEGINNER'S LUCK

Her first Hindi film hasn't even hit theatres, but **Reeth Mazumder**, 22, is already crossing over. The Kolkata girl has worked in Bengali films and is debuting in *Aaja Gunah Kar Le* directed by Ram Gopal Varma's assistant, Surya. "I had circulated my pictures to production houses and two days later I got a call. I was on, after a 10-minute meeting," she says. And recently Mazumder signed on Pakistani director Siraj Ul Haq's *Koshish*, a story about a mother-daughter relationship. Surely, this one's trying her best.
