

*You have trusted us for generations,  
and we will ensure you always will.*

At Moolchand Women's Hospital you can take some things for granted – women friendly care, outstanding physicians, world-class facilities, innovation and superior clinical outcomes.

Over the past half century Moolchand has treated over 1,000,000 women and delivered 100,000+ babies. Almost like a family tradition, most Delhites have a "Moolchand Baby". Your constant support has encouraged us in our endeavours to redefine women's healthcare. Thank you!
