

# 2008 INDIA

The choice of freedom at midnight was purely astrological. A fixed sign and Abhijeet Muhurta were the considerations among few options available at that time. The Indian Independent Horoscope of 15th August 1947 at midnight, New Delhi has been used extensively for mundane predictions by many astrologers as it has been found to be giving excellent results. The Shri Vishvijay Panchang also uses it for its annual predictions.

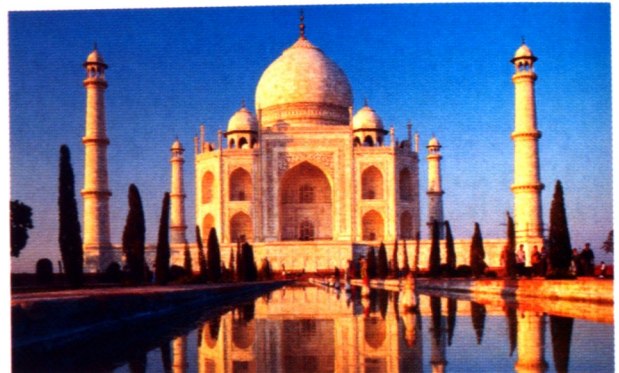

## Brief background

During the time of independence the country was under the influence of Saturn Mahadasha which is a yogakarak and a good planet for the country. This was by and large the period of consolidation for the country.

The next dasha was that of Mercury. Being the lord of 2nd (finance) and 5th (affairs of the country) this led to financial reforms, bank nationalization and moving towards establishing itself as an international power.

The next dasha of Ketu, which is placed in the 7th house, and as its dasha started in 1982, gave rise to religion and fundamentalism and lasted till 1989.

The Venus mahadasha started in 1989 and will last for a period of 20 years i.e. till 2009. The planet is in the 3rd house (communications) with Saturn (fortune), Mercury (finance) and Moon (neighbours). During this period overall there will

be revolution in the field of communications, travel, luxury, liberalization and women empowerment.

India runs the Mahadasha of Venus and the antardasha of Mercury till July 2008 and thereafter it would be Venus with the antardasha of Ketu till July 2009.

On the basis of the above I am trying to give below the predictions for the country in the coming year for the various sectors that would be influenced by Mercury till mid 2008 and thereafter by Ketu.

## General

As per the Varshaphal for 2008, the year Lord is Saturn, Lagna Lord is Jupiter. The Lagna represents the self which is strong and the country would be able to overcome the difficulties and move forward. Lagna lord Venus is exalted and thus has intrinsic strength.

Mars is in the second house as Lord of 12th and 7th which governs International relations. Thus there will be a lot of focus on International relations. Rahu in the 2nd and 9th Lord, Sun in 8th with Ketu indicates rise in communalism.

Mars in the 2nd house as Lord of 7th and 12th, both indicating foreign hands, indicate depletion of wealth due to a foreign connection. It also indicates huge import of oil and arms.

## Economy, stocks / capital market

Upward trend is seen in stocks till June 2008 and with the advent of Ketu there is likely to be a decline or a downward trend. This is because Ketu, represented by Mars is in the 8th house from its natal position
