

Retirement plans from insurance companies are unique financial planning tools that help you achieve your important long-term goals by guaranteeing them and also give you the tax benefits that allow you to enjoy your today even better

# Your Future Guaranteed

It's good to live for the moment and enjoy what life has to offer today. And it's also good to plan for the future so that you are in a position to enjoy what lies ahead. But, wouldn't it be great if you get to do both? Life insurance is a financial planning tool that gives you this double benefit. On one hand, it helps you plan for important long-term goals by guaranteeing these goals. On the other hand, it gives you tax benefits that help you enjoy your today even better.

Unlike developed nations, India does not have a welfare system to take care of one's needs post retirement. But for the small percentage of workers covered by the government pension system, a vast majority of Indians have to plan for retirement on their own.

So, how should one go about planning for retirement? As a first step, decide on your post-retirement lifestyle. Then you need to calculate the cost of this lifestyle—which is your Retirement Number. To calculate it, you need to take into account inflation, the years left for retirement and the amount of money you need for your monthly expenses post-retirement, taken at today's cost of living. Go to [www.iciprulife.com/retirementnumber/index.htm](http://www.iciprulife.com/retirementnumber/index.htm) to find out your Retirement Number.

If your Retirement Number seems huge, it only goes on to demonstrate that inflation and a rising lifespan are
