Hi,

I am happy to write to place on record that, I was saved from a burglary attempt on the 22nd of Dec 07, when at night some burglars tried to break open my flat at Sleater Road. I and my family were out in Malaysia for a vacation when this happened.

There was an attempt on two flats in our building that night and the burglars could not break open my flat just because of the Ultra Twin Bolt lock. Though the lock is seriously damaged, I am convinced enough to re install the same lock once again in its place. I was informed by the carpenter as well as the Police that if this lock was not installed, our flat would have surely been burgled.

**So great going Godrej, just keep on manufacturing such strong locks.**

With best regards,  
**Hoshi Driver,**
