

GENERATING PARTNERSHIPS FOR THE FUTURE OF INDIAN AGRICULTURE

John Fowler, India + Westrup, Denmark

Fowler Westrup is a joint venture between John Fowler of India and Westrup of Denmark, the leaders from two of the most industrious and enterprising countries – Denmark & India. The strategic alliance, forged about eight years ago, has brought some of the most path-breaking and revolutionary technologies in the post harvest agricultural equipment industry. Our Danish partners have given technology and engineering innovations that we have leveraged to deliver the most advanced machinery for cleaning, grading, sorting of post harvest grains & seeds to the Indian Agricultural Processing Industries.
