

The Good, the Bad and the Indifferent

The rankings of chief ministers, based on the net popularity ratings (NPR), were arrived at by adding the "outstanding" voter perceptions to the "good", minus the "poor". The "average" rating is not taken into account. Khanduri positives add up to 89 and deducting the "poor" (2) gives him an NPR of 87 and No. 1 rank.

1

B.C. KHANDURI, Uttarakhand

		Feb 2007*	Sept 2006*
Outstanding	34		
Good	55		
Average	10		
Poor	2		

2
