

If you are looking to redefine healthcare, we are looking for you.

Moolchand, every physician's dream come true is looking for medical professionals across specialities. Professionals who are looking for enduring relationships based on values, trust and a belief that today healthcare itself needs a healing touch.

Where your patients come first

Our 'Moolchand Cares' philosophy is based on putting patient interests ahead of our own and delivering care with a human touch. Our facilities, designed by international experts, meet the highest standards of effective medical flows, patient safety, healing and comfort. We continually seek to leverage technology to enhance patient care and outcomes. One of the many examples of which is minimal access surgery where Moolchand is recognized as a national center of excellence. At Moolchand affordable excellence is the norm. We believe in being more affordable than other hospitals of equivalent quality.

Where you come first

The Moolchand 'physician experience' goes beyond world-class infrastructure, robust processes and international protocols. We work towards creating an empowering platform for physicians to achieve their goals and optimize performance. Whether it's academic opportunities or superior management support. We follow an open door policy to encourage debate and ensure innovation. All in an environment that enables physicians to deliver their best with minimal strain.

Where you can proudly belong

Moolchand is unique in today's 'corporatized' healthcare environment with an unmatched culture of uncompromising ethics. Our legacy as a Trust ensures that many of the commercial practices that are commonplace in healthcare today are not acceptable at Moolchand. Instead, we place a premium on integrity and relationships. Through our charitable clinics and soup kitchen we touch 70,000 lives every year.

To experience the miracle of Moolchand contact our Physician Recruitment Team for an informational interview: call Mr. Sunil Saggat at + 91 93130 38316 or e-mail to us at physicians@moolchandhealthcare.com
