VIT
UNIVERSITY

(Est. by 3 of UGC Act 1956)
Vellore 632 014, Tamil Nadu, India.
(formerly Vellore Institute of Technology)
www.vit.ac.in

The institution's focus on all-round development encourages a vibrant interest in extra curricular activities. Students have exclusive music, dance, dramatics and literary clubs besides trekking, debating, and quizzing - showcasing talent in state, district, national and international levels. Physical fitness is also given prime importance.

With its focus on individual attention, world class leadership and character building, VIT's biggest gratification is seeing its students set firmly on the path of improving the quality of life for the human race.

International Accreditations

VIT is the first educational institution in India to get International accreditations for its programmes. The Institution of Engineering and Technology (IET), United Kingdom and the Energy Institute, United Kingdom have audited the Teaching-Learning Processes at VIT and accredited the respective programmes with highest validity of 5 years. Accordingly, the international accreditations are valid up to 2009.

"Our mission is to educate students from all over India, including those from the local and rural areas, and from other countries, so that they become enlightened individuals, improving the living standards of their families, industry and society. We will provide individual attention, world-class quality education and take care of character-building."
