

The Perks of Working

With Indian companies preparing to close 2008 with 36 per cent net profits, all levels of employees will get good salaries

The Watson Wyatt survey has covered 146 companies and 907 positions to assess the nature and percentage of increases that most of these companies are slated to pay in 2008. At least top eight companies have been surveyed in each sector. The survey also has a fair mix of domestic and multinational companies across each sector.

MANUFACTURING

Boom reaches blue collar workers, thanks to acquisitions, expansion and investments in plants.

16% Median
18% Upper Quartile
20% Upper Decile

INFOTECH

A stronger rupee is a reality but so is the need to hold on to the best.

16% Median
18.4% Upper Quartile
25.7% Upper Decile

INSURANCE

New players in the private sector and expansion by the public sector is pushing up talent cost.

13.5% Median
18.8% Upper Quartile
21.9% Upper Decile

PHARMA

Thanks to acquisitions abroad, capacity addition and a dearth of talent, salaries are rising.

15.7% Median
17.2% Upper Quartile
23.4% Upper Decile

AUTO ANCILLARY

With India emerging as a global hub, auto ancillaries find spend power and pay better to retain skilled talent.

14% Median
15.2% Upper Quartile
19.5% Upper Decile

ITES & BPO

Higher attrition, entry of new players and expansion has driven remuneration higher.

15% Median
17.7% Upper Quartile
25% Upper Decile
