

SOCIAL SAFETY NET

A social security scheme called Pannadhai Jeevan Amrit Yojana covers BPL members in the event of the death of the breadwinner by providing life insurance and scholarships for the poorest of the poor. Since August 2006, payouts have already exceeded Rs.25 crores. Indeed, the Aam Admi Yojana, announced by the central government this year, is verily the Rajasthan governments's Pannadhai Scheme.

A PIONEER IN PUBLIC - PRIVATE PARTNERSHIP

Rajasthan is India's pioneering state to attempt public-private partnerships in the social sector by setting up four women's colleges, 15 engineering colleges, 120 ITIs, Veterinary Care Centres in the Kota region, a mid-day meal scheme covering about 5 lac children, and a telemedicine facility at Kaithun Community Health Centre, Kota and the Sir Ganga Ram Telemedicine Centre, New Delhi.

INVESTOR FRIENDLY STATE

Today, Japan's Honda Motor Company is setting up its second car manufacturing plant in Rajasthan. Work on construction of the plant started at site within six months of reaching an understanding. Other major companies like Mitsubishi Chemicals and Imasen Electrical are setting up manufacturing operations in Rajasthan. Lafarge is putting up a cement plant. A new Special Economic Zone (SEZ) is being constructed by Mahindra & Mahindra near Jaipur. Genpact is setting up another IT SEZ. Infosys & Wipro are investing in the state. NIIT is setting up a private university. So is the Gomber Foundation, Singapore.

A Manipal University campus is coming up in Jaipur. Bombay Hospital and Narayan Hridayalaya are setting up facilities here. An MoU with North Shore Hospital is under discussion.

Vasundhara Raje government has looked beyond 'drought management' to livelihood creation, reviving the dormant pride so symbolic of Rajasthan. The marketing of traditional skills has protected the state's farmers from suicide. It has to be borne in mind that development is everyone's responsibility. This is why the Vasundhara Raje government is successfully engaging citizens, civil society and business houses, for development and governance. All of this is being done with a sustained focus on ecologically safe growth. Most importantly, it has succeeded and will continue to do so.
