

CERTIFICATION OF EXCELLENCE

The **ISO 27001:2005** standard - an independent assessment of the organisation's conformity to the best practices in Information Security Management.

The **ISO 9001:2000** system of quality management focuses on processes. It enables us to reach our goal of complete customer satisfaction through superior quality.

World's first multi-commodity exchange* to obtain dual ISO certifications on Quality Management and Information Security Management System

The **ISO/IEC 27001:2005** certification for information security management and **ISO 9001:2000** certification for process quality management since inception (2004) are testimony to the following facts:

- Our clearing & settlement, and trading processes are benchmarked to global standards
- Highest level of accreditation in the world for data security and data integrity
- We are not only exceeding regulatory requirements but creating global benchmarks
